

## CLASS F - QUICK CHANGE

Quick change cargo conversion kits for commercial aircraft. The modification can be reversible to a passenger configuration with minimum effort, in less than 3 days.

### Dimensions:

Load Capacity: **600 KG**

Width: **964 mm**

Depth: **2750 mm**

Height: **1250 mm**

Volume of content: **3,3 m<sup>3</sup>**

The Cargo Nets can be easily installed and can carry a wide range of cargo: from dangerous goods, e-commerce items and humanitarian supplies.

### Long durability item

Product manufactured with robust cargo straps and internally covered by a fire proof fabric, the LHColus' Cargo Net resists to all structural conditions, fire protection, aggressive fluids contamination, fungus and Emergency Evacuation requirements.

A proprietary safety system provides predictive fire detection, by continuously monitoring any heat change in the cargo - much before any smoke detector would sense it.

HIGH QUALITY • FAST RESULTS • BEST PRICING.
